

# TRANSFLO® Velocity

## FACTORING COMPANIES AUTOMATE SUCCESS

Processing client paperwork by hand takes too long and costs too much. Factoring companies save time and money by automating the process with Transflo Velocity.

### How it works

Transflo Velocity receives, digitizes, and electronically delivers clients documents to you. With customized workflows, factors capture key information like document type and index values when clients submit paperwork.

**It speeds up the billing process. It speeds up the collections process. And it makes everybody in the supply chain happy."**

- Eric Belk, Vice President,  
Match Factors

Clients submit documents using any method they prefer. Instead of manually collecting and processing the paperwork, Transflo Velocity simply does it for you.

Transflo Velocity supports multiple document input methods and standardizes them into one solution allowing you to submit invoices to debtors quicker.

**Insights.** Automation creates consistent data formats across your entire portfolio.

**Efficiency.** You achieve faster and less expensive processing of clients paperwork.

**Results.** Shorter verification cycles improve cash flow and save time.

## How you benefit

Get out of the paperwork management business by using Transflo Velocity, and turn your focus back to managing your factoring business – funding your next client and billing debtors quickly. The solution is fully configurable for factors of all sizes. You can automate the entire process or just specific parts; it's up to you. By using Transflo Velocity to submit paperwork to debtors, you receive a trackable confirmation that everything was received. It's the fastest way for your business to recognize savings.

and bill debtors faster

How carriers and factors submit with Transflo Velocity

## Factor Scanning

Factors scan and submit debtor paperwork at any time with Transflo Velocity. And Transflo Velocity integrates directly into the debtor's workflow. Couldn't be easier.

## About Transflo

Transflo® is the leading mobile and business process automation software for the transportation industry. Provided by Pegasus TransTech, the Transflo portfolio digitizes over 400 million documents annually. It also delivers real-time communications to thousands of fleets, brokers, and commercial vehicle drivers who represent nearly \$40 billion in freight bills each year. Organizations throughout the company's client and partner network look to Transflo to increase efficiency, improve cash flow, and reduce costs.
