

# TRANSFLO® Velocity

## BROKERS EXCEL WITH AUTOMATION

Processing carrier paperwork by hand takes too long and costs too much. Freight brokers save time and money by automating the process with Transflo Velocity.

### How it works

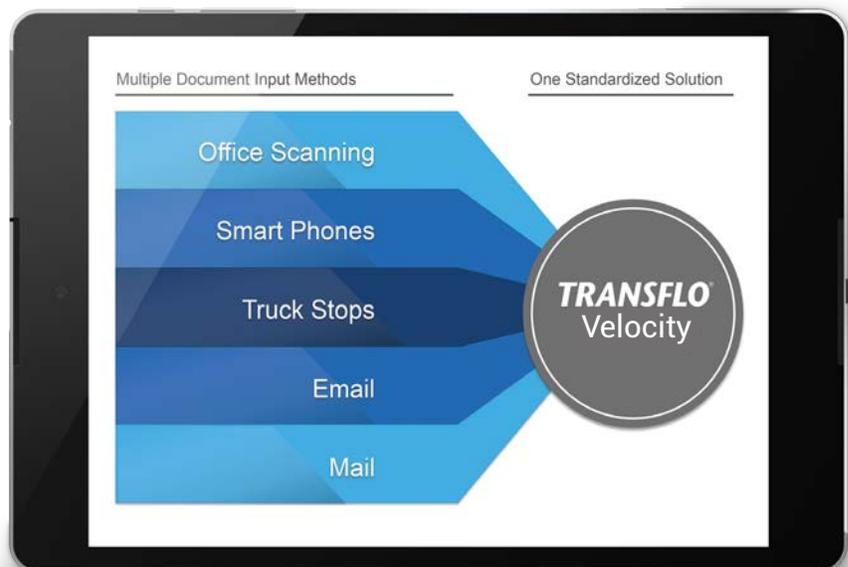

Transflo Velocity receives, digitizes, and electronically delivers carrier documents to you. With customized workflows, brokers capture key information like document type and index values when fleets submit paperwork.

**Our carriers enjoy... getting paid faster, and we benefit from the reduced time and effort to process delivery documents. Transflo Velocity is a win-win...."**

- Ramona Hood, Managing Director,  
FedEx Truckload Brokerage

Carriers submit documents using any method they prefer. Instead of manually collecting and processing the paperwork, Transflo Velocity simply does it for you.

Transflo Velocity supports multiple document input methods and standardizes them into one solution.

**Insights.** Automation creates consistent data formats across your entire brokerage.

**Efficiency.** You achieve faster and less expensive processing of carrier paperwork.

**Results.** Shorter billing cycles improve cash flow and save time.

## How you benefit

Get out of the paperwork business so you can focus on your brokerage business – scheduling your next load and billing your clients. Transflo Velocity is fully configurable for brokers of all sizes. For a completely no-touch experience, our team of professional indexers will enter information from mail and email that you route to our Louisville Processing Center. This state-of-the-art facility uses patent-pending optical character recognition (OCR) to process documents electronically and allows you to receive them within a few hours. No touch, no hassle with Transflo Velocity.

How carriers submit to Transflo Velocity

## Integrated with Carrier Scanning

Carriers also use Transflo. They scan and submit trip paperwork at any time from anywhere. And Transflo for carriers integrates directly into Transflo Velocity for brokers. Couldn't be easier.

## About Transflo

Transflo® is the leading mobile and business process automation software for the transportation industry. Provided by Pegasus TransTech, the Transflo portfolio digitizes over 400 million documents annually. It also delivers real-time communications to thousands of fleets, brokers, and commercial vehicle drivers who represent nearly \$40 billion in freight bills each year. Organizations throughout the company's client and partner network look to Transflo to increase efficiency, improve cash flow, and reduce costs.
